Professional Summary

Self-taught Fullstack Web Developer passionate about building scalable, user-focused applications using modern technologies like React, Node.js, TypeScript, and MongoDB. Transitioned from a civil engineering background where I gained strong attention to detail, modular thinking, and a commitment to building the right way. Now fully focused on delivering impactful digital solutions.

Skills and Technology

Languages	JavaScript, TypeScript, HTML, CSS
Frontend	React, Tailwind CSS, Framer Motion , Tanstack Query
Backend	Node.js, Express.js
Database	MongoDB, Mongoose
Tools	VS Code, Figma, Postman, MongoDB Compass
Other	Git, Github, REST APIs, JWT Auth

Projects

▼ Fralon Peanuts (Frontend)

Stack : React, Typescript, Tailwind CSS, Tanstack Query

A responsive and user-friendly web app for a small peanut butter business. Users can browse products, log in or sign up, add items to cart, and place orders. Built with a clean UI and mobile-first layout.

- Build using React and Tanstack Query for server state management and caching
- Reusable, modular component structure
- React Hook Form for form handling
- Axios as HTTP client and use of interceptors
- scalable, layered architecture inspired by Clean Architecture principles

▼ Fralon Backend API

Stack : Node.js, Express.js, Mongoose, MongoDB

RESTful API powering both Fralon Peanuts frontend and its admin app. Handles user registration, login, products data, order management, transactions tracking, cart management

- Secure authentication with JWT and hashed passwords
- Role-based authorization (admin vs normal users)
- CRUD operations
- Connected to MongoDB Atlas
- Aggregation Pipelines
- MVC pattern

Education

Diploma in Civil Engineering (in progress 95% complete)

Railway Training Institute (2020 - present)

Built a foundation in structure problem-solving, technical planning and attention to detail, skills that now translate into writing clean, efficient code. Transitioned into software development through self-learning and hands-on practice.

Additional Info

Languages	English, Swahili
Soft skills	Self-motivated, detail-oriented, work ethic
Interests	UI/UX, design systems, fitness, learning new stuff
Hobbies	Coding, sports, cooking, music
